Asking Price
Euro **249.000** Leasing Plan

***** ENGINES WITH ONLY 150 HOURS *****

Black Shiver line is the flagship of Novamarine manufacturing: a complex product dedicated to whoever is looking for the best of technology, design and functionality.

Last uniqueness, but not least in order of importance, the tubes used for the entire Black Shiver line use a special shock-resistant rubber foam that is resistant to punctures and does not deflate thus offering greater safety and stability and allowing a larger interior space because of its semicircular shape. Everything is controlled from a console which is the quintessence of technology.

The Black Shiver 100 combines elegance, performance and flexibility of use. The distinctive features of the 100 are beauty, high quality of materials used, speed and safety.

Such a luxurious and high-tech maxi-tender will blend perfectly with any large luxury yacht.

The Black Shiver 100 will take you to your destination so quickly that you will not want to get off because you will miss that little thrill that only our boats are able to provide.

Italian Flag - Leasing plan pending
